The Barstow School is one of only a handful of small schools in the state to have its own full-time athletic trainer. Scott Mendenhall, certified athletic trainer, now in his 3rd full-time year with Barstow, will once again be providing athletic training services for our student-athletes. Scott has been a part of the Barstow Athletic Department for 9 years and been assisting our athletes since 2009.

Scott’s main responsibilities will continue to be as a 1st responder in case of a medical emergency, to provide basic first-aid care, doing on-field and training room assessments of athletic injuries, developing a treatment/rehabilitation plan for those injuries, and as a weight room instructor during school hours. He is here to provide on-site coverage for practices and home events throughout the school year. Scott arrives around lunchtime each day, teaches one hour of class in the afternoon, and will remain on campus during the scheduled practices and contests.

In the event of a medical emergency or if more extensive care is needed, Scott will be in regular contact with parents regarding their child’s injury, rehabilitation, and/or treatment options. His position certainly does not replace medical care prescribed by a physician but can be helpful in conjunction with the physician’s orders to accelerate the recovery process. In order for Scott to treat your child, we need you to complete and return the permission form below to the Athletic Office.

I give Scott permission to treat my child ___________________________ (please print child’s first and last name).
